(1) for all public waters, the more restrictive of:

(i) a 50-foot average width, 30-foot minimum width, continuous buffer of perennially rooted vegetation; or

(ii) the state shoreland standards and criteria adopted by the commissioner under section 103F.211; and

(2) for public drainage systems established under chapter 103E, a 16.5-foot minimum width continuous buffer ~~of perennially rooted vegetation on ditches within the benefited area of public drainage systems~~ as provided in section 103E.021, subdivision 1. The buffer vegetation must not impede future maintenance of the ditch.

(b) A landowner owning property adjacent to a water body identified in a buffer protection map and whose property is used for cultivation farming may meet the requirements under paragraph (a) by adopting an alternative riparian water quality practice, or combination of structural, vegetative, and management practices, based on the Natural Resources Conservation Service Field Office Technical Guide or other practices approved by the board, that provide water quality protection comparable to the buffer protection for the water body that the property abuts. Included in these practices are retention ponds and alternative measures that prevent overland flow to the water resource.

(c) The width of a buffer on public waters must be measured from the top or crown of the bank. Where there is no defined bank, measurement must be from the edge of the normal water level. The width of the buffer on public drainage systems must be measured as provided in section 103E.021, subdivision 1.

(d) Upon request by a landowner or authorized agent or operator of a landowner, a technical professional employee or contractor of the soil and water conservation district or its delegate may issue a validation of compliance with the requirements of this subdivision. A local water management authority that receives a summary of watercourses identified under this subdivision must ~~revise~~ incorporate an addendum to its comprehensive local water management plan or comprehensive watershed management plan to ~~incorporate~~ include the soil and water conservation district recommendations by July 1, 2018. The incorporation to include the summary of watercourses provided by the soil and water conservation district does not require a plan amendment as long as a copy of the included information is distributed to all agencies, organizations, and individuals required to receive a copy of the plan changes. A local water management authority that receives a summary of watercourses identified under this subdivision must address implementation of the soil and water conservation district recommendations when revising its comprehensive local water management plan as part of a regularly scheduled update to its comprehensive local water management plan or development of a comprehensive watershed management plan under section 103B.801.

Sec. 7. Minnesota Statutes 2015 Supplement, section 103F.48, subdivision 7, is amended to read:

Subd. 7. **Corrective actions.** (a) If the soil and water conservation district determines a landowner is not in compliance with this section, the district must notify the county or watershed district with jurisdiction over the noncompliant site and the board. A county or watershed district must provide notice to the board at least 60 days before the effective date of a subsequent decision on the county's or district's jurisdiction.

~~(b)~~ (c) If the landowner does not comply with the list of actions and timeline provided, the county or watershed district may enforce this section under the authority granted in section 103B.101, subdivision 12a, or by rule of the watershed district or ordinance or other official control of the county. Before exercising ~~this~~ administrative penalty authority, a county or watershed district must adopt a plan consistent with the plan adopted by the board containing procedures for the issuance of administrative penalty orders and may issue orders beginning November 1, 2017. If a county or watershed district with jurisdiction over the noncompliant site has not adopted a plan, rule, ordinance, or official control under this paragraph, the board ~~may~~ must enforce this section under the authority granted in section 103B.101, subdivision 12a.

(e) (d) If the county, watershed district, or board determines that sufficient steps have been taken to fully resolve noncompliance, all or part of the penalty may be forgiven.

(d) (e) An order issued under paragraph (b) (c) may be appealed to the board as provided under subdivision 9.

(e) (f) A corrective action is not required for conditions resulting from a flood or other act of nature.

(f) (g) A landowner agent or operator of a landowner may not remove or willfully degrade a riparian buffer or water quality practice, wholly or partially, unless the agent or operator has obtained a signed statement from the property owner stating that the permission for the work has been granted by the unit of government authorized to approve the work in this section or that a buffer or water quality practice is not required as validated by the soil and water conservation district. Removal or willful degradation of a riparian buffer or water quality practice, wholly or partially, by an agent or operator is a separate and independent offense and may be subject to the corrective actions and penalties in this subdivision.

Sec. 8. Minnesota Statutes 2015 Supplement, section 103F.48, subdivision 8, is amended to read:

Subd. 8. **Funding subject to withholding.** The state board may withhold funding from a local water management authority with jurisdiction or a soil and water conservation district that fails to implement this section or from a local water management authority that fails to implement subdivision 4. ~~Funding subject to withholding includes soil and water program aid, a natural resources block grant, and other project or program funding.~~ Funding may be restored upon the board's approval of a corrective action plan.

When the service is provided through prepaid capitation, the nonfederal share is paid by the state and the county pays no share.

(j) The commissioner may suspend, reduce, or terminate the reimbursement to a provider that does not meet the reporting or other requirements of this section. The county of responsibility, as defined in sections 256G.01 to 256G.12, or, if applicable, the tribal agency, is responsible for any federal disallowances. The county or tribe may share this responsibility with its contracted vendors.

(k) The commissioner shall set aside a portion of the federal funds earned for county expenditures under this section to repay the special revenue maximization account under section 256.01, subdivision 2, paragraph (o). The repayment is limited to:
